Navigation:

URI	Navigation
/vendor	home > Vendor search (Under Search menu)

Objective and Features:

This functionality is developed to enable self serve image search to Image Vendors, Kwikie and Gladson. Also this utility enables it's users to add the images to CSP database which available at the vendor end. The search parameter is GTIN.

- Images of different view angles
- Easy tabular form
- Pop-out window to add the images to CSP
